

Legacy Project

*Upper Elementary
Middle School*

Lesson 5/6 Synthesis/Evaluation

Estimated Time:

Prep: 5 minutes
Instructional Time: 30 minutes

Needed Materials

none

Learning Goals

- Students will evaluate the overall study experience.

Procedure:

This lesson helps students to reflect on the overall activity and to reevaluate their own lifestyles.

1. Have a class discussion about The Legacy Project (students can answer questions in a whole group setting, in small groups, or individually).
 - How did the study go?
 - What would you change next time?
 - Where should we go from here?

Big6 Stage 5: Synthesis

Students must organize and communicate the results of the information problem-solving effort.

5.1	Organize information from multiple sources
5.2	Present the information (How can I organize all the information? How can I present the result?)

Big6 Stage 6: Evaluation

Evaluation focuses on how well the final product meets the original task (effectiveness) and the process of how well students carried out the information problem solving process (efficiency). Students may evaluate their own work or process or be evaluated by others.

6.1	Judge the product (effectiveness)
6.2	Judge the information problem-solving process (efficiency) (Is the task complete? How can I do things better?)
